

VFI-540 Aluminum Rubber Roof Membrane

**Has the warranty expired on
your rubber roof?
Is it beginning
to leak?**

**No V.O.C.'s
Environmentally Safe
UL Approved**

Now is the time to save money, get a better roof ...and a 15 year (or more) non-prorated warranty too!* A value buy!

Keep your existing roof in-place and apply VFI-540 Aluminum Rubber Roof Membrane over it. You will have a leak-free roof that will reflect more UV and maintain a lower roof temperature than a new rubber roof.

An additional benefit!

Your questions will be answered by one of our technicians or chemists. They're just a toll free phone call away.

***Volatile Free, Inc. ...the original manufacturer
of Aluminum Polyurea Hybrid Elastomer Membranes.***

VFI-540 Aluminum Rubber Roof Membrane is a **green** alternative to removing and replacing an existing rubber roof.

No VOC's, Environmentally Safe, UL Approved

- VFI-540 Aluminum Rubber Roof Membrane contains suspended, aluminum flakes that repel the sun's heat, **lowering air conditioning costs.**
- VFI-540 applied over an existing rubber roof adds an additional layer of protection and **eliminates adding non-biodegradable rubber roofing to your local landfill.**
- VFI-540 Aluminum Rubber Roof Membrane is **self-flashing**, conforming to irregular shapes, making caulking unnecessary.
- Rubber roofing has seams that can separate and leak due to temperature changes. **VFI-540** forms a one-piece, elastic membrane that bridges and **seals** these seams.

VFI-540 Aluminum Rubber Roof Membrane temperature

****VFI's Roofing Systems, when professionally applied and maintained, are covered by a non-prorated, leak-free warranty.***

Possible tax savings!

Removal and replacement of an existing single-ply roof is a capital investment. Applying VFI-540 Aluminum Rubber Roof Membrane over an existing rubber roof is a repair and therefore could be tax deductible. (Consult your tax advisor.)
